

Omni Antenna Ref.: NE0022

DESCRIPTION

This antenna has been designed for data link purpose using circular polarization in the 2.3 GHz frequency band.

This antenna is manufactured for using in harsh environment.

TECHNICAL CHARACTERISTICS

Frequency	:	2300 MHz +/- 100 MHz
VSWR	:	<1.8
Gain	:	3 dBi typ.
Polarization	:	circular (RHCP or LHCP)
Elevation pattern	:	140° (at 3 dB)
Azimuth pattern	:	Omni
Impedance	:	50 Ohms
Connector	:	N female
Dimensions	:	Diameter : 104mm, height : 95 mm
Weight	:	260 g typ.
